

IMPATICA VIEWER PALM OS EDITION VERSION 1.0.0 RELEASE NOTES

October 23, 2007
Copyright 2000-2007 Impatica Inc.

Introduction

Thank you for selecting Impatica for PowerPoint. You can now begin to Communicate with Impact!

Impatica Viewer Palm OS Edition is used to load and view presentations onto your Palm OS smartphone then project them with ShowMate.

Please refer to the ShowMate User's Manual on our Web site for additional details:

<http://www.impatica.com/support/guides/>.

Upgrade Information

Impatica Viewer Palm OS Edition is a free download. This is the first release of Impatica Viewer Palm OS Edition.

System Requirements

- Palm smartphone with Palm OS version 5.0 or later and Bluetooth (Impatica software verified with 680P, 700P and 755P);
- Impatica for PowerPoint 4.0.2 on Windows PC for converting presentations to be loaded onto the Palm OS smartphone;
- Impatica ShowMate 2.2.1 or higher for projecting presentations from the Palm OS smartphone.

New Features

Impatica Viewer Palm OS Edition makes it possible to load and view presentations converted with Impatica for PowerPoint onto Palm OS smartphones. These presentations can then be projected wirelessly from the Palm OS smartphone with Impatica ShowMate.

Known Issues

- Presentations must be copied to the handheld memory. Impatica Viewer Palm OS Edition does not support presentations copied to the expansion card.
- Presentations are deleted when the Impatica Viewer application is deleted.

Customer Support

If, after reviewing the [Impatica ShowMate User's Manual](#) and the [Impatica Knowledgebase](#), you require further assistance, please contact Customer Support at Impatica:
