

The ShowMate QuickInstall Guide.

Connecting to Your BlackBerry®

Plug the USB cable supplied with your ShowMate into the BlackBerry input port on the ShowMate. Plug the other end into your BlackBerry.* For use with a password-protected BlackBerry, first use the ShowMate Updater to add your password to your ShowMate.

Connecting to Your Projector

Using the VGA cable that came with your projector, attach your projector to the VGA port on the ShowMate.

Connecting to a Power Supply

Plug the charger supplied with your BlackBerry into a power outlet, then into the power input port on the ShowMate.

The ShowMate QuickStart Guide.

See the ShowMate User's Manual for details.

Preparing Your BlackBerry

Ensure that the Impatica Presentation Viewer has been installed on your BlackBerry from a PC, pushed via your enterprise server, or downloaded from: www.impatica.com/bb

Loading Your Presentation

From a Computer

Drag and drop your PowerPoint™ presentation onto Impatica for BlackBerry Edition to convert it and load it onto your BlackBerry.

By E-mail

If your BlackBerry is equipped with the Impatica for BlackBerry Enterprise Server Attachment Handler, view a PowerPoint presentation attached to any e-mail message.

Projecting Your Presentation

On your BlackBerry, launch the Impatica Presentation Viewer application. In the list of presentations, scroll to the one you would like to project, click the trackwheel and choose "Project Presentation".

Controlling Your Presentation

To navigate your presentation, click the trackwheel and choose a command from the menu.

Show Next Animation or Slide

Select "ShowMate Step" or hit the Space key.

Go to Previous Slide

Select "ShowMate Previous" or hit the Del key.

Go to Next Slide

Select "ShowMate Next".

Exit

Select "Close" or press the Escape button.

*For 7700 series handhelds, use the USB cable supplied with your BlackBerry.
